

Equipment

Harnesses

The Slow Dog Movement recommends two harness brands; Haqihana (an Italian company) and the BARE harness made in the UK by Woofs to Kittys in London. Laura and I have met, on several occasions, the owners of Haqihana and they are impeccable in their dedication to making high quality and anatomically correct equipment.

Alix Pilet won the **Slow Dog Movement** Logo contest in 2020 and her dog, Bastos, is wearing the Haqihana 'Harness Multicolor' on this cover photo. The harness and leash were kindly donated by Haqihana.

Haqihana has a map on their site that helps you locate a retailer.

BARE harnesses are made in the U.K. and are lightweight with a great fit. They are made by Woofs to Kittys in London.

Leashes

Both Haqihana and BARE sell matching leashes (at least 3 metres is recommended for everyday use) alongside their harnesses.
